

DogRacing - Cryptocurrency value change betting DApp

For centuries now, the financial industry seemed to have clear-cut rules, definitive paths, and long-term stability. It took only a few years for cryptocurrencies and its underpinning blockchain technology to lay bare this age-old misconception. Our goal is to develop one of the most exciting betting platform that enables users to place bets on their favourite cryptocurrency. Our mission is usher in transparency, and peer-to-peer exchange through blockchain technology. Our solutions is DogRacing Cryptocurrency betting platform.

If you've ever enjoyed greyhound race, you'll know just how spectacular and dynamic they are. We believe that cryptocurrency value index can be a perfect racer too. Put them into desired track length of 1 hour, 1 day or 1 week and we have a full racing event with start and finish. Betting makes every race more exciting, so you are welcome to bet on a leader (highest percentile increase in value at the finish line of your chosen cryptocurrency) or other finishing conditions. Special tournaments and games combined with state-of-the art web interface will lead to thrilling betting experience. Transparent and safe betting is ensured by Ethereum Smart Contract technology.

ICO and DGR Tokens

We have put in an extreme amount of effort and resources into developing DogRacing. This is why we're now pleased to announce that the platform is ready to welcome members into its cryptocurrency betting ecosystem through an ICO that kicks off on 2018.04.20. Limited amount of DGR tokens will be offered to whitelist members and public. Token holders will be entitled to monthly dividends from a pool generated by the 5% commission off every bet on the platform. 10% of all tokens are designated to Jackpot pool and only token owners can compete for Jackpot winnings. Token holders are also entitled to voting right. Additional information will be available in the upcoming Whitepaper.

Why DogRacing

Our goal is to offer a frictionless and direct betting platform for users to bet on their favourite cryptocurrency against others. Through an intuitive and easy-to-use interface, our platform will facilitate various tournaments and games based on value change of cryptocurrency. Due to the nature of blockchain and cryptocurrency technology players can rely on safe betting environment via Ethereum Smart Contract. DGR token ownership will enable additional features and betting options, including becoming the Jackpot winner and enjoying monthly dividends.

Following cryptocurrency market will never be the same once you place a bet on your favourite coin and see it win the race.
